

Blue Bins

Our Eco Warriors are excited to launch the next phase of their environmental efforts by introducing *Blue Bins* to every classroom and key area around the school. These bins are part of a new whole-school initiative to improve how we recycle wastepaper.

The Eco Warriors have delivered the bins and have led assemblies to educate pupils and staff on how to use them correctly. They have explained what can and can't go in the bins, why recycling is important, and how small actions like this can make a big difference to our planet.
